

# AN ILLUSTRATIVE GIS PERSPECTIVE: THE RIGHT PLACE, THE RIGHT IMPACT. MUMBAI BUILT FOR PLAY.

Location strategy is more than finding space. It is about connecting with people, communities, and opportunity. GIS helps us see the bigger picture so every LEGO® Store becomes a lasting part of the places it serves.

## WHAT IS ANALYZED

- POPULATION & DEMOGRAPHICS**  
Where families live, grow, and explore.
- TOURISM & VISITATION**  
Footfall from domestic and international visitors.
- ACCESSIBILITY**  
Proximity to transit, roads, and walkable areas.
- COMPETITION**  
Understanding the landscape to stand out.
- RETAIL ENVIRONMENT**  
Synergy with complementary retail and entertainment.
- REAL ESTATE & FEASIBILITY**  
Space availability, costs, and development potential.

## MUMBAI AT A GLANCE

**20.4M**  
Population (Metro Area)

**16.6M**  
International Visitors (2024)

**Top 3**  
Global Retail Markets

**7**  
Metro Lines (Expanding)

**6-8%**  
Retail Growth Outlook

“ A LEGO® Store isn't just a destination. It's a connection point in the ecosystem that brings together families, fans, and communities.”

# MUMBAI MARKET POTENTIAL

## RETAIL LOCATION PLANNING

| SITE COMPARISON (KEY METRICS)  |              |                    |                 |
|--------------------------------|--------------|--------------------|-----------------|
| METRIC                         | SITE A (BKC) | SITE B (PALLADIUM) | SITE C (R CITY) |
| Market Potential Score (0-100) | 87           | 82                 | 76              |
| Population in 5 km             | 1.3M         | 1.1M               | 1.0M            |
| Avg. HH Income (INR)           | 1.9M         | 1.7M               | 1.2M            |
| Tourism Footfall               | High         | High               | Medium          |
| Metro Accessibility            | Excellent    | Excellent          | Excellent       |
| Retail Density                 | High         | High               | Medium          |
| Competition Intensity          | Medium       | High               | Low             |
| Total Ecosystem Score          | 85           | 81                 | 72              |

Site A leads in overall ecosystem value, with strong connectivity, high-income population, and balanced competition.

**WHY THIS MATTERS**

The best locations are not just about sales. They are about long-term impact, brand love, and community connection.

**DATA. INSIGHT. IMPACT.**

GIS turns data into direction so we build stores that inspire, perform, and last.

**NEXT STEP: CONTINUOUS OPTIMIZATION**

We monitor, learn, and adapt to ensure every store continues to deliver value over time.
